>>> History

Cultural y Deportiva Leonesa is one of **the most historical** professional clubs in Spain over **100 years old.**

The first official game for the club was on August 5th, 1923.

The club also possesses **one of the most powerful and successful youth systems** in Spain and competes in the highest division for each age group against the best clubs like FC Barcelona, Real Madrid CF, Valencia CF, Athletic de Bilbao, Villareal CF, Sevilla FC, among many others.

Our Youth System follows a pyramidal structure of development with players from **4 to 24 years old**, being the reserve team and first team the last two steps in this club's pyramid and the entran- ce to professionalism. The club has competed in all Professional Divisions of Spanish Soccer, including First and Second Division for many years.

The club has competed in **La Liga Hypermotion** and **1st RFEF** (2nd and 3rd Spanish National league), and has being considered one of the best teams in 1st RFEF division. This position provides a unique and exclusive accessibility and exposure to professional soccer for all our players in the youth system.

>>> Philosophy

The main difference with our International Academy is the actual **integration of the player within the Club's structure.** Our players do not only train under our methodology, but they also have the opportunity to **join the club's competitive teams and progress** within a professional structure based on their performance, adaptation, and growth.

Sergio Cuelllo
CLIA → Júpiter / First team dynamic

Joaquin Torres
CLIA Trial → Cultural C

Genki Tanaka
CLIA → Juvenil A (Promotion DH) → Cultural C

Parsiya Jafari

Our success stories reflect the true value of the program: players who **arrive through CLIA**, integrate into the club's structure, and progress based on their performance, adaptation, and growth. From earning a spot after a trial to contributing to the club's sporting achievements, CLIA offers a **real path for development within a professional environment**.
Real stories. True integration. Development within a professional club.
